March 22, 2016

TO: UF/IFAS Faculty
FROM: Jackie K. Burns
SUBJECT: Multi-State Research Funds

We are happy to announce the availability of a small grants program to enhance impacts of our multi-state research projects. Your project is eligible for these funds. To help maximize the quality and the impacts of IFAS multi-state research projects, we are sponsoring a call for proposals for funding of up to \$10,000. Funds will be awarded in mid-April and must be spent by September 22, 2016. Funds must be used for work encompassed by your multi-state project and may be used for supplies (not including supplies prohibited by Cost Accounting Standards), travel, student stipends, post-doc salary, or OPS salary. Funds may not be used for faculty salary or tuition and faculty may only submit one proposal.

The online submission form asks for a 300 word project description and a 100 word justification of the budget. To apply, please complete the fields at the following website within the next two weeks: <http://researchtools.ifas.ufl.edu/multistate/>

Proposals must be received by Monday, April 4th, 2016.
