

## 2023 UF/IFAS Annual Report of Peer-reviewed Journal Articles – Demonstrating UF Affiliation & UF/IFAS Unit Affiliation

All publications referenced in the annual report **must contain confirmation of University of Florida affiliation**. Publications that do not include UF in the author's byline will be excluded. Please check each publication, especially if you have new faculty hires as their affiliation could be their prior institution.

Faculty should report their publications to the unit level and only to one unit. **Campus departments should not report publications by faculty that are assigned to a Research and Education Center**. Please see the examples below.

**Example 1:** This article has UF affiliation. The unit affiliation in the byline shows Plant Pathology and Gulf Coast Research and Education Center. This publication can *only* be included on the report for Gulf Coast Research and Education Center as that is the unit affiliation. It is not eligible for the Plant Pathology report.
