

## **Publication Reporting FAQs** **Demonstrating UF Affiliation**

All publications submitted in this report **must demonstrate UF affiliation**. Publications that do not include UF in the author's byline cannot be included. Please see the following example.

Citation in APA format:

Cicero, J. M, T. W. Fisher, **J. A. Qureshi**, P. A. Stansly and J. K. Brown. 2017. Colonization and intrusive invasion of potato psyllid by '*Candidatus Liberibacter solanacearum*'. *Phytopathology*. 107(1):36-49. <http://dx.doi.org/10.1094/PHYTO-03-16-0149-R>

In this example, the institutional affiliation of the first author, Joseph M. Cicero, is the University of Arizona. Even though his current address is listed as UF, this publication cannot be included in the unit list for Entomology & Nematology Dept. (Figure 1). However this citation can be included in the unit list for Southwest Florida REC because the affiliation to UF for co-authors, Jawwad A. Qureshi and Philip A. Stansly, is indicated (Figure 2).
