An Equal Opportunity Institution. Florida Agricultural Experiment Station, Institute of Food and Agricultural Sciences, University of Florida, Dr. John Hayes, Interim Dean for Research, publishes this information to further programs and related activities. Information about alternate formats is available from IFAS Information and Communication Services, University of Florida, PO Box 110810, Gainesville, FL 32611-0810.

IFAS scientists are truly changing the world through the impacts of their research. New knowledge generated by IFAS researchers is evaluated and validated by the scientific community and shared through our research publications.

The impacts of our research are broad and manifested in many different ways, including impacts on

- science, by extending the frontiers of fundamental scientific understanding;
- agricultural production, by improving agricultural practices and creating new agricultural varieties and technologies;
- human welfare, by improving human health;
- the environment, by providing the key for environmentally sustainable practices; and
- the economy, by spawning new products, technologies, businesses, and jobs.

Below are 45 of the recent UF/IFAS publications that are recognized as having especially important impacts. The 8 publications printed in **blue** below were selected for special recognition at the 2012 UF/IFAS Research Awards Ceremony.

Alagely A., C. J. Krediet, K. B. Ritchie and M. Teplitski. 2011. Signaling-mediated Cross-talk Modulates Swarming and Biofilm Formation in a Coral Pathogen *Serratia marcescens*. *The ISME Journal*. doi: 10.1038/ismej.2011.45:1-12.
