

Culture of Nomination

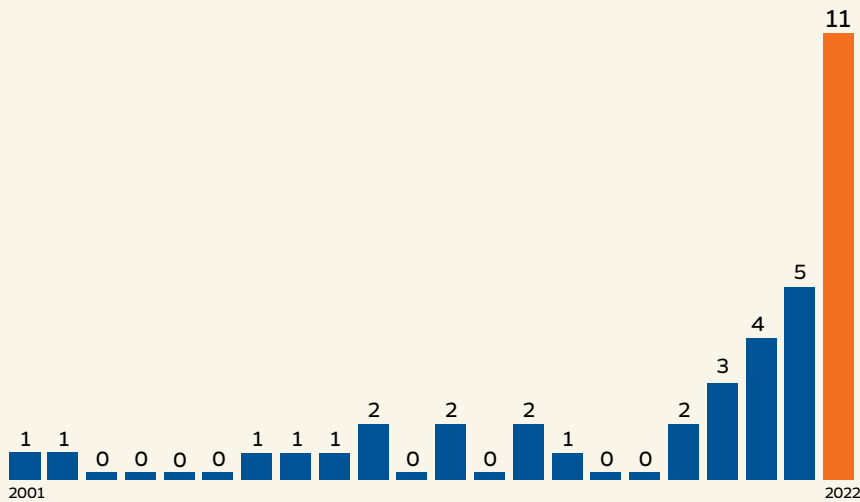

“Nominagraph” of 40 Current UF/IFAS AAAS Honorary Fellows:

The American Association for the Advancement of Science (AAAS) Honorary Fellows Program is a fantastic example of how a Culture of Nomination continues to grow at the University of Florida. The UF/IFAS Research Dean’s Office ensures that top faculty are eligible for nomination and encourages current AAAS Fellows to nominate their colleagues who are making outstanding contributions to interdisciplinary science. The increase in AAAS Fellows year-over-year shows the benefits of this coordinated effort and the high stature of our faculty in UF/IFAS core disciplines.

New AAAS Fellows By Year:

Thanks to a strong culture of nomination, UF leads the nation with 19 faculty elected as AAAS Fellows in 2022.

Higher citation discipline

Lower citation discipline

All 15 UF/IFAS tenure homes are included. Approximately seven to 10 faculty from each tenure home are gifted AAAS memberships and eligible for AAAS Fellow nomination, regardless of whether they are in a higher or lower citation discipline.
