December 6, 2018

TO: UF/IFAS Unit Leaders
FROM: Jackie Burns
SUBJECT: AAAS Fellow Nominations

Please join me in congratulating Drs. Robert Ferl (HOS) and Jeffrey Jones (PLP) as new Fellows in the American Association for the Advancement of Science (AAAS)! AAAS Fellows are honored for demonstrating distinction on behalf of science and/or its applications. The UF announcement is [here](#).

For the coming year's nomination cycle, nominees must have continuous membership in AAAS for a period of four (4) years by the end of 2019 (i.e., membership on or before December 31, 2015). More details can be found here (www.aaas.org/general-process).

If you have one or more qualified faculty in your unit, I ask you to submit a single PDF document: 1) **A list of the nominee's top ten most significant publications**, 2) **A comprehensive CV including all publications** and 3) **A statement that the nominee meets AAAS membership criteria**, to (IF-SVC-ResDeans@ad.ufl.edu) by **February 4, 2019**.

This is part of a multi-year effort by a committee of current AAAS Fellows (Chaired by Dr. Harry Klee) to help our excellent faculty who have demonstrated distinction in their respective disciplines, to be recognized. Please encourage your faculty at all career stages to stay current with their AAAS memberships so they are eligible this year, or in future years.

Thank you for your support of our excellent UF/IFAS faculty, and let us know if you have any questions.
